

CLOUD ACCOUNTING CHECKLIST

On the journey to a paperless office, the accounting department is an ideal first stop. From syncing bank accounts to electronically storing receipts to automating bill payments, let us show you how technology can allow your business to be

✓ MORE TRANSPARENT ✓ MORE FLEXIBLE ✓ MORE EFFICIENT

-
- Are you on-the-go more often than sitting at a set workspace?
 - Is it a priority to monitor your cash flow balance at a moment's notice?
 - Come tax time, are you overwhelmed with gathering data, receipts, and paperwork?
 - Are you a QuickBooks 2013 (or earlier) user?
 - Do you feel limited by your current accounting software? Do you wish you could sync your bank, credit, and/or merchant accounts?
 - Would you prefer real-time reports instead of after-the-fact data?
 - Could your business benefit from getting paid by customers two to three times faster?
 - Is one of your main frustrations that you just don't have enough time?
