

VIRTUAL BUSINESS PROCESSES ALLOW YOU TO DO ANYTHING, ANYTIME, ANYWHERE.

Alloy Silverstein's partnership with **Bill.com** gives business owners the capability to virtually monitor and control their organization's accounts payables and receivables.

With a secure bank account synchronization, you can send and receive payments electronically, generate client invoices, download complete audit trails, view cash forecasts, collaborate with your team members, and more, all from **Bill.com** on a web browser or mobile device. Reduce fraud risk and get paid faster today.

BETTER BUSINESS DECISION MAKING IS IN YOUR REACH.

Alloy Silverstein's partnership with **Xero** provides a simple, virtual, and real-time accounting software hosted on a cloud-based platform. No more program installations, annual licenses, or being tied to one computer to access your financial data.

Xero's features include mobile access, free automatic updates, unlimited collaboration, integration with over 300 add-on applications, an intuitive user interface, and a real-time data dashboard, like the one below.
