Hardenbergh Insurance Group

THE DEEP DARK WEB
Harry Srolovitz

Atlantic, Tomorrow's Office

"It won't happen to me."

But, cyber criminals *are* targeting small businesses. 60% of those who fell victim to an attack or breach were out of business within 6 months.

And the threats don't stop with hackers. Do you have a disaster recovery plan in place? Have you thought about infrastructure interruption? Downtime, data loss, and breaches are very costly, but precautions are available to help mitigate risk.

Alloy Silverstein's 2nd annual Security Symposium features a panel of experts to discuss how business owners can protect their most valuable assets — and bottom line — in today's digital age.

DATE: Thursday, November 29, 2018

TIME: 8:00–8:30AM
Registration, Breakfast, and Networking
8:30–10:30AM
