Beneficial Ownership Information (BOI) refers to identifying information about the individuals who **directly or indirectly** own or control **at least 25%** of a reporting company's ownership interests.

As part of the Anti-Money Laundering Act, the Corporate Transparency Act authorizes the **U.S. Treasury's Financial Crimes Enforcement Network (FinCEN)** to collect and securely store uniform identifying information from all entities registered to do business in the U.S.

The purpose is to better prevent criminals from misusing closely-held businesses as "shell companies" in order to carryout illicit activities such as tax evasion, money laundering, and more financial crimes.
